

Ansonia District Data Team Agenda November 12, 2009

“The idea that a single teacher, working alone, can know and do everything to meet the diverse learning needs of 30 students every day throughout the school year has rarely worked, and it certainly won’t meet the needs of learners in years to come... Quality teaching is not an individual accomplishment; it is the result of a collaborative culture that empowers teachers to team up to improve student learning beyond what any of them can achieve alone.”

Tom Carroll in “The Next Generation of Learning Teams” in *Phi Delta Kappan*
