My experience in Ansonia High School was not the greatest. I say this because I hated the people in it. The teachers are slobs & ignorant, I just couldn't stand talking to them or even comprehend what they say because it all full of lies & bullcrap. But the memory was great.

For example, I use to cut class to hang out with my friends. I cut my classes because it was obnoxious & boring & I hated the teacher. One time I was cutting a class at the launch room & my walks right into me & said "Hey aren't you supposed to be in my classroom" Since I was bad a lying I couldn't resist on saying "No".

However, I don't care about this damn school or the adinatracion. After they made student wear uniform this school went down hill. Then I came to the P.A.C.E. which help me the way through the years. I thank this program & the people in it for making me the person who I am today.
